PROFILE

I am a proactive and passionate 3rd-year CSE student, I believe we can conquer AI by harnessing its own power. In the end, we will only defeat it by learning from it. This battle is incredibly intriguing, and I am excited to fight it on behalf of your company And eager to contribute my strong foundation in Data Structures and Algorithms (DSA), Web Development, and Database Management Systems (DBMS) to Trident.

PROJECTS

The Newllywood: A News App

Developed a dynamic and visually appealing news application using HTML, CSS, and JavaScript. Integrated third-party news APIs to fetch and display real-time news articles, providing users with up-to-date information on various topics.

Hostel-Insta: The Hostel Management System (currently working)

Inspired by personal experiences in my hostel, where discrepancies and lack of transparency in mess account management were common, I developed an online system to address these issues. This project utilizes DBMS and OOP concepts to provide a reliable and transparent platform for managing hostel mess accounts.
